

DATA SOURCES

Fill out this form with sources you've found for the information you'll present in your infographic. The goal is to ensure that you've chosen a viable topic.

	EXAMPLE: TIGERS	YOUR TOPIC
<div>APPEARANCE</div> <div>The potential to communicate what something looks like, or to use the viewers' prior knowledge of what something looks like to communicate the topic of the display.</div>	<div>subtopic: Shape of tigers versus other large cats</div> <div><p>https://kids.nationalgeographic.com/content/dam/kids/photos/animals/mammals/14-P/jaguar-walking-branchngrversion1461176495163.adapt.1900.jpg</p><p>https://68.media.tumblr.com/0902afe4ad3e872499eeaeec472d1894/tumblr_nry9tbp0ittrjaro1_1280.jpg</p><p>https://hawkebackpacking.com/images/pictures/africa/kenya/masai_masai_balloon_flight/kenya_masai_masai_balloon_flight_19.jpg</p><p>http://images.fineartamerica.com/images-medium-5/mountain-lion-walking-on-frozen-lake-konrad-wothe.jpg</p></div>	<div>subtopic:</div> <div>What is cryptocurrency's current state today?</div> <div>Use image of bitcoin; it's widespread use to depict cryptocurrency and blockchain technology in the main-stream media will suggest people will immediately identify the topic at hand by looking at an image of bitcoin.</div> <div>Answer what is bitcoin, why's it so important, and what buy with it?</div>
<div>CONNECTIONS/RELATIONSHIPS</div> <div>The potential to communicate connections between things or people in the real world using connections between shapes on a page.</div>	<div>subtopic: The relationship of tigers (as a species) to other large cats</div> <div><p>https://en.wikipedia.org/wiki/Big_cat</p></div>	<div>subtopic: How is bitcoin aquired?</div> <div>Need wallet with address (e.g.- blockchain) Can be bought through exchanges from sellers Can be mined yourself What's needed? ASIC (dedicated mining hardware) Your computer Rent cloud services Joinining pool or going solo?</div> <div>https://bitcoin.org/en/faq https://www.bitcoinmining.com/getting-started/ https://www.coindesk.com/information/how-do-bitcoin-transactions-work/</div>
<div>TIME</div> <div>The potential to communicate when events occur/occurred in time relative to each other using relative position on a page.</div>	<div>subtopic: When tiger subspecies have gone extinct</div> <div>Lists the subspecies and when they became extinct: http://www.tigersincrisis.com/the_status.htm</div>	<div>subtopic: What's happened with bitcoin/ timeline?</div> <div>Extract information from sources below; overlap with value graph (below price vs. time)</div> <div>https://archive.nytimes.com/www.nytimes.com/interactive/technology/bitcoin-timeline.html#/time284_8156 http://nymag.com/selectall/2017/12/bitcoin-timeline-bit-coins-record-highs-lows-and-history.html https://hackernoon.com/everything-you-need-to-know-about-bit-coins-timeline-in-4-minutes-244a412b9455 https://securingtomorrow.mcafee.com/mcafee-labs/timeline-bit-coin-events-demonstrates-volatility/ https://www.lawgives.com/guide/542342337777744aa010000/Bitcoin https://tl-bitcoin.com/what-is-bitcoin/ https://www.reddit.com/r/Bitcoin/comments/6m0n85/timeline_for_segwit/</div>
<div>NUMBERS</div> <div>The potential to communicate the number/amount/size of things in the world using the number/amount/size of things on a page.</div>	<div>subtopic: How much tigers weigh compared to a housecat (something much more familiar) and to other big cats?</div> <div>The weight of cat species: http://www.bigcats.com/cat-species-weight-comparison</div>	<div>subtopic: How does the value of bitcoin stack vs. other cryptocurrencies when compared on \$?</div> <div>Take relevant/ popular currencies and price information from- https://whattomine.com/</div> <div>Transactions and value traded per day?</div> <div>Compare exchange trade volume and amount for bitcoins vs card https://blockchain.info/charts http://blog.unibulmerchantservices.com/how-mastercard-processes-74b-transactions-a-year/ https://altcointoday.com/bitcoin-ethereum-vs-visa-paypal-transactions-per-second/</div>
<div>LOCATION</div> <div>The potential to communicate positions of things or places relative to each other in the world using position on the page.</div>	<div>subtopic: Current versus historic range.</div> <div><p>http://1.bp.blogspot.com/-We1hjvIHwp-w/T3H1U2f3QwI/AAAAAAAAAF5Q/T798LaQTB3s/s1600/tiger+map.jpg</p></div>	<div>subtopic: Which countries are bitcoin illegal in?</div> <div>https://coin.dance/poli</div> <div>Interest and use by country</div> <div>Interest from Google search- https://trends.google.com/trends/explore?date=to-day%201-m&q=bitcoin</div> <div>bitcoin nodes by country- https://coin.dance/nodes#share https://bitnodes.earn.com/</div>
<div>UPDATED TOPIC NARRATIVE</div> <div>TITLE: PARAGRAPH:</div>	<div>TITLE: Who is <i>Panthera tigris</i>?</div> <div>PARAGRAPH: Tigers are the largest of the 5 species in the genus Panthera. Within the species <i>Panthera tigris</i>, trhere are 6 subspecies still living. 100 years ago, there were 9. Their historic range extends from India through southeast asia and north into eastern China and Russia.</div>	<div>TITLE: Bitcoin- an overview of the new digital fiat currency.</div> <div>PARAGRAPH: Bitcoins haven't been out for even a decade but have already commanded a value a thousand fold greater than the dollar. This currency that's generated from mining through computers is redin- ing geopolitical laws concerning this decentralized anonymous currency while transponding itself to the real world with people buying games to houses using it.</div>
